Subject: 1 hr values

Stef, I seem to recall you telling me that reporting in grams per hour for first hour values is not required under the rule. If I remember correctly, can you help me understand why that is the case with M28R tests since Section 5.2 of ASTM 2780 states that reporting units are grams per hour and grams per kilogram. Why wouldn't this apply to the one-hour metric? Thanks!

Lisa
